**AMERICAN AID FOR THE
MAINED FRENCH SOLDIERS**

New York, March 4.—Thirty thousand maimed French soldiers are pleading for work, for the opportunity to be educated to make themselves useful in the labor world of their country, it is announced by Mrs. Edmund Lincoln Baylies, chairman for the United States of a movement which has just been inaugurated for the organization of the American committee for training in suitable trades the maimed soldiers of France. For these 30,000 crippled men, according to Mrs.

Baylies, an equal number of positions are being held open by the employers of France, who need these workers. Only the training for these soldiers is lacking to enable them to learn some useful pursuit so that they can serve in shop and factory.

"Build a bridge that will lead him from the hospital over into a normal life," Mrs. Baylies urges, in discussing the maimed soldier of the French republic. "We have been owing France through a hundred years for that little matter of first aid in our American Revolution."

The American committee, which has established headquarters at the Plaza Hotel in this city, regards its task in the light of charity to do away with need of charity. It requires from three to six months for one of these war dependents to pass through this period of instruction—the length of time necessary for his tuition depends on the man and his trade—and the cost of his education is only four to five francs a day. One hundred dollars would meet the average of all cases, the committee estimates.

Americans in France contributed \$20,000 immediately upon learning of the organization there of a similar committee. Such trades are taught as basketmaking, carpentry, glass work, photography, shoe-making, tailoring, instrument-making, watch-making, tinware work, bookkeeping, short hand and typewriting. Unless the multitude of employable men who are being turned loose from the hospitals, were taken in charge and their normal life artificially reconstructed, the committee in France foresaw a new and ever-increasing dead weight of misery for the republic.

The committee in France knew of one soldier who, having lost an arm while fighting on the Marne, drifted from shop to shop in search of a chance to support himself and, turned away because he knew no trade which he could follow with his one arm, shot himself. It is to avert such tragedies as these that the American committee, headed by Mrs. Baylies, is laboring.

The maimed ones who are being taught trades under the direction of the committee in France, divide their profits in full, when they have reached the stage of production, with those pupils which are only beginning to learn.

**SIEGEL RE-ARRESTED AS
HE LEAVES PRISON**

Rochester, N. Y., March 4.—Henry Siegel, New York banker and department store owner, whose ten months' imprisonment in Monroe county penitentiary expired today, was arrested upon his release on a warrant issued yesterday by District Attorney Wheeler of Livingston county. He was taken before Justice Benton to arrange for bail.

The bond fixed at \$25,000, was furnished by a surety company. Accompanied by his attorney, Siegel then departed for Geneseo, where he said he would remain. While waiting to be arraigned, Siegel talked freely.

"Why don't they give me an oppor-

tunity to earn money to pay back my creditors?" he said. "Already I have had several offers."

The Court of Last Resort.

Around the stove of the cross roads grocery is the real court of last resort, for it finally over-ruled all others. Chamberlain's Cough Remedy has been brought before this court in almost every cross roads grocery in this country, and has always received a favorable verdict. It is the country where man expects to receive full value for his money that this remedy is most appreciated. Obtainable everywhere.

**GRAPHITE MINES IN TEXAS
TO BE DEVELOPED**

Lampasas, Texas, March 4.—Graphite mines near here, which are said to be large deposits, will be developed by California capitalists, who are here looking over the fields.

It is understood that \$200,000 is to be spent in installing machinery and developing the field.

A Specific Against Colds.

The nearest thing to a specific against colds is a sleeping porch or open bed room and a cold sponge bath every morning when you first get up. Even then you will occasionally take a cold, especially when colds are epidemic, and when you do you will find Chamberlain's Cough Remedy a great help in enabling you to get rid of it. Try it. Obtainable everywhere.

Overland**SIX****\$1145**

Model 86 f. o. b. Toledo

No Advance In Price

The price of the big, powerful Overland Six (Model 86) will not be advanced.

Prices of other Sixes are advancing. Prices of Sixes recently announced on new models, are higher. In fact, comparatively figuring, prices of practically all Sixes are now far in excess of the Overland.

On the basis of present prices of raw materials a Six of the Overland quality would have to sell at a much higher price.

But due to a little foresight in purchasing we escaped having to pay premiums for raw materials—hence the price of the Overland Six is not increased.

This in spite of the fact that prices of all steels are up from 100% to 150%; that the price of aluminum has gone from about 20 cents a pound to over 50 cents a pound; that the price of copper has more than doubled; that tires and other accessories have had a sharp advance.

We cannot guarantee that this present price of \$1145 will hold indefinitely.

The serious condition of the material market makes that impossible.

But the quality is not lowered; and for the present price is not advanced.

Just compare the size, power, flexibility and quality of the Overland Six motor; the length of the wheelbase—the seating capacity, the finish, the equipment, the comforts, the conveniences and improvements of the Overland Six with all others and you'll find no valid reason for paying more than \$1145 for a six cylinder automobile.

Deliveries now.

**CLERK SAYS HE WAS
PAID TO BURN HOTEL**

Newark, O., March 4.—A. O. Kern, a business man, was arrested Wednesday on a charge that he hired Arthur Grubb to set fire to Kern's hotel on January 6, 1914. Five persons were burned to death in the fire. Grubb was employed as night clerk in the hotel. He is alleged to have confessed that Kern paid him \$100 to start the fire.

Tulsa Sheriff Reinstated.

Tulsa, Okla., March 4.—Sheriff Jas. Woolsey of Tulsa county who was suspended from office last December, after charges of failing to do his duty in the enforcement of the laws against gambling and bootlegging had been preferred against him by a special

grand jury, was freed and reinstated when Judge Linn of the county court today sustained a motion on the part of the defense that the court was with-

out jurisdiction to try him. The state was granted twenty days in which to appeal. Little surprise was occasioned by the dismissal of Woolsey's case.
